I fell away from the right path back in 1999, I became angered and not a nice human being. Going my own way with no thought of the Lord. I would ask the Lord for help but nothing would happen. Over the course of many years my home life and marriage started falling apart. Several times over the years a friend asked me to attend Oak Pointe Church (OPC), however I wouldn't accept the offer. When my life reached a breaking point I turned to that friend and asked for guidance. He said, you have to pray to the Lord, I replied that I don't know how to. That day I asked the Lord to forgive my sins in prayer and soon after began attending OPC and following the word of the Lord. Within a few short months I started to attend the Heart and Soul class with my wife, it was and continues to be a blessing to both of us. I am forever indebted to the Lord, OPC, the Heart and Soul class and the people the Lord has placed within my life. The Lord continues to test me in ways I can't explain, making sure I am staying centered, however I now have the tools to help me stay on the right path. Steve Alexander
